

Corovan: The Digital Platform for National Commercial Moves

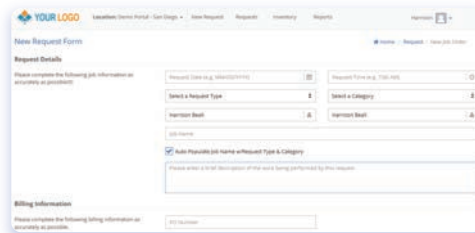

Corovan is a unique service model that combines technology, logistics infrastructure, and supply chain expertise to relocating your company all under one online platform.

Single Source Service Request

Say good bye to the endless manual tracking, emails, and headaches that come with traditional moving companies. Do it all from the Corovan Portal to schedule and order office moves, lab moves, plant moves and more.

Plus, Corovan delivers, visibility, control, and predictable uptimes from one powerful technology platform called Corotrak.

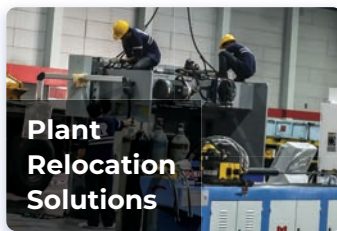

Our Technology

Expert Teams – National and Global Service Model

Corovan has an established global network of over 350 service providers. You have an accountable partner committed to moving your business from day one that is managed and delivered by a dedicated team of experts that offers true reliability.

Move Types
